Hi! I'm Steff

.NET & Angular Developer | DevOps Enthusiast

I'm a passionate developer with a strong focus on **web development** and **DevOps**. I thrive on learning and working with the **latest technologies and frameworks** to continuously grow my expertise.

I enjoy collaborating as part of a team in an **agile** environment, where I can contribute to building impactful solutions. I'm detail-oriented, committed to **getting things right**, and understand that even the smallest details can make a big difference.

Work experience

Many lines of code and coffee

Software Developer

Fuzed | November 2023 - Present

At **Fuzed** (previously known as **Codefined**), I contribute in developing an innovative, **cloud-based ERP** system tailored for the **food production industry**.

Software Developer

Codefined | May 2021 - October 2023

At **Codefined**, I specialized in developing custom **.NET** and **Angular** web applications tailored to meet client-specific requirements.

Analyst Developer

aariXa | July 2017 - April 2021

At **aariXa**, I worked extensively with a versatile tech stack, including **Angular**, **.NET Core**, **MS SQL**, **Azure**, and **Windows Server**, combining modern frameworks and **Microsoft-centric technologies** to deliver innovative solutions.

Dynamics 365 CRM Developer

Bridgestone | October 2016 - June 2017

As a consultant at **CTG**, I contributed to a project for **Bridgestone**, focusing on the customization and enhancement of their **Dynamics 365 CRM** system.

Education

Hours of learning new technologies

Professional Bachelor's Degree in Applied Computer Science

University College PXL | September 2013 - June 2016

Application Development (Web & Mobile)
